PROFILE

As a dedicated and results-driven full-stack developer with a strong background in data analysis, I specialize in building robust, user-friendly web applications and deriving valuable insights from complex data. I am passionate about leveraging modern technologies to solve real-world problems and continuously enhance my skills. With a focus on clean code, attention to detail, and effective collaboration, I aim to deliver high-quality solutions that meet both business goals and user needs.

EDUCATION

❖ **Malla Reddy College Of Engineering** .... Nov 2022 — Present
B.Tech(Data Science)   Hyderabad

Specialised in Data Science and Full Stack development

❖ **Narayana Junior College** .... Jul 2020 — Aug 2022
Inter   Hyderabad

Specialization in MPC(Maths,Physics,Chemistry)

❖ **Narayana High School** .... Jul 2019 — Apr 2020
SSC   Hyderabad

SKILLS

Computer Skills	Adaptability ....
Problem Solving	Multitasking Skills ....
Teamwork	Time Management Skills ....

HOBBIES

Coding,Playing some Tech Games,Music,Fitness,Exploring AI

INTERNSHIPS

❖ **Full Stack Developer, Informatics Research Labs** .... Sep 2024 — Dec 2024
                                                                                                    Hyderabad

As a Full Stack Development Intern, I gained practical experience in both front-end and back-end development, working with technologies like HTML, CSS, JavaScript, and various back-end frameworks. I contributed to building and optimizing dynamic web applications, developing RESTful APIs, and integrating third-party services. Through this internship, I strengthened my problem-solving skills, collaborated with teams to meet project deadlines, and learned best practices in coding and software development life cycles.

❖ **AWS Intern, BrainOvision Solutions Pvt. Ltd** .... Jan 2024 — Mar 2024
                                                                                                    Hyderabad

As an AWS Intern, I gained hands-on experience with cloud computing technologies, focusing on Amazon Web Services (AWS) to build and manage scalable cloud-based solutions. I assisted in configuring, deploying, and optimizing applications on AWS, improving my skills in cloud architecture, automation, and cost management.

Throughout the internship, I collaborated with the team on real-world projects, developing my problem-solving and technical abilities while learning best practices for cloud infrastructure.
